

### Welcome to ISSI Map v. 1.0

[www.issi-gis.com](http://www.issi-gis.com)

ISSI Map is a FREE ArcGIS Desktop Add-In designed to simplify and automate mapping. Through a single dialog, you can add pertinent information, essential cartographic elements and a custom company logo. With one click of a button, your new custom map is ready to print.

### SYSTEM REQUIREMENTS

ArcGIS Desktop Version 10.1 or 10.2

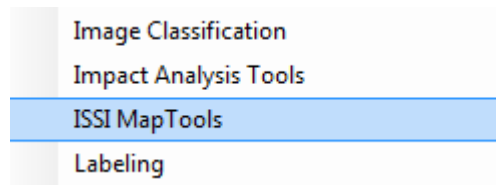

### INSTALLING THE ISSI MAP ADD-IN

When you double-click on ISSIMap.esriAddIn, the Esri ArcGIS Add-In Installation Utility opens. The installation utility automatically copies the add-in file to a generated subfolder under the well-known add-in folder.

The ISSI Map Toolbar should automatically appear the next time you open ArcGIS Desktop. If the toolbar does not appear:

1. On the *Standard* toolbar, click **Customize > Toolbars**
2. Click **ISSI Map Tools**

NOTE: ISSI Map Tools is only active in the **data view**. It is not active in the **layout view**.

---

## THE FORM

A screenshot of the 'ISSI Map' form interface. The window title is 'ISSI Map'. The interface is divided into several sections. On the left, under 'Map Information', there are input fields for 'Title:', 'Prepared By:', 'Issued For:', 'Date:' (with 'February 3, 2014' entered), 'Project:', and 'Notes:'. In the center, under 'Layouts', there is a 'Page Size:' dropdown menu with options 'A Size - 8.5 x 11', 'B Size - 11 x 17', 'C Size - 17 x 22', 'D Size - 22 x 34', and 'E Size - 34 x 44'. Below this is a 'Data Frames:' section with 'Main Map:' set to 'Layers' and 'Index Map:' set to 'Index Map'. There is a 'Select Image ...' button and an empty text field below it. On the right, there is a preview window showing a map layout with a main map area and a sidebar. Below the preview are four buttons: 'Landscape 1', 'Portrait 1', 'Landscape 2', and 'Portrait 2'. At the bottom right are 'Create Map' and 'Close Form' buttons. The ISSI logo and 'Integrated Spatial Solutions, Inc.' are visible in the top left of the form area.

The ISSI Map Form allows the user to input the following (all elements can be manually updated after the layout is complete):

- **Title** – Enter up to 3 lines of text. The title will be automatically scaled to fit within the Title Box of the selected map template.
- **Prepared By** - Enter the name of the map author.
- **Issued For** - Enter your client's name, purpose or description.
- **Date** - This field will be filled in automatically with a current date stamp from your computer.
- **Project** - Enter a project number for easy tracking.
- **Notes** - Enter miscellaneous notes.
- **Index Map** - If your map contains more than one data frame, you can choose to have an index map included in your map.
- **Select Image** – Use the Select Image button to browse to an image and insert it into your layout. Image formats allowed include .bmp, .jpg, .png, .emf, or .tif. The browser will default to the last directory accessed.
- **Layouts** – Choose from the following 8 map template styles:

Landscape 1  
Vertical Legend, Index Map

Landscape 1  
Vertical Legend, No Index Map

Landscape 2  
Horizontal Legend, Index Map

Landscape 2  
Horizontal Legend, No Index Map

Portrait 1  
Vertical Legend, Index Map

Portrait 1  
Vertical Legend, No Index Map

Portrait 2  
Horizontal Legend, Index Map

Portrait 2  
Horizontal Legend, No Index Map

---

## CUSTOMIZATION

Let us customize ISSI Map for you.

Unique Map Templates:

- Utilize international and/or custom layout sizes
- Add or remove static map elements
- Incorporate your custom design
